Forecast for Saturday 18 May 2024

Weather: Early low cloud clearing to leave a day of sunny spells and showers. Perhaps fewer sunny intervals than on Friday with a higher risk of heavy showers. These could be slow-moving and locally thundery with hail possible before gradually easing through the evening.

Chance of cloud-free hill tops above 600m: 60% becoming 90% by mid-morning. Falling to 60% during showers.

Low cloud and visibility: Areas of low cloud above 500m at first, mainly in the east, and some mist or fog also possible in the valleys. Cloud and fog lifting and clearing most summits by mid-morning. Generally good visibility thereafter but deteriorating to poor or very poor in any afternoon heavy showers or thunderstorms.

Meteorologist's View

Sudden deteriorations in heavy, thundery showers leading to surface runoff. Strong sunshine at this time of the year so ensure you have sun protection with high UV levels expected.

Recent rainfall: measured at Neuadd: altitude 353m
